

A Catwalk In The Middle Of The Ocean Onboard Costa Luminosa

March 15, 2016

Jessica Minh Anh transformed Costa Luminosa's sun deck in Sydney into the world's newest runway

Sydney, March 15, 2016 - Fashion show producer and model [Jessica Minh Anh](#) transformed the sundeck of Costa Luminosa into an ocean runway. As Costa Luminosa was anchored offshore at Sydney during her Around-the-World cruise, models were catwalking in the middle of the ocean.

Featuring the Sydney Harbour Bridge and the famous Opera House as its backdrop, J Spring Fashion Show 2016 overtook all the modern fashion productions with a flawless combination of art, architecture, culture, and style. The exclusive red-carpet event premiered nearly 100 haute couture and ready-to-wear dresses from Europe, Asia, New Zealand, and Australia, and jewellery collections from 4 continents.
