

Princess Cruises Extends Book with Confidence Policy Offering More Flexibility for 2022 Summer Vacations

January 17, 2022

Cruise Line Will Continue to Operate Vaccinated Cruises with Extended Health and Safety Protocols

SANTA CLARITA, Calif., Jan. 17, 2022 /PRNewswire/ -- It's never too early to start planning for much-anticipated summer vacations, and Princess Cruises is giving guests an added level of comfort when they book a cruise with the extension of the [Book with Confidence](#) program, and extended health and safety protocols.

Book with Confidence is now extended to summer 2022 sailings, including all cruises departing through September 30, 2022, for all bookings made by March 2, 2022. The flexible program allows guests to make summer travel plans with confidence knowing that if plans change, their cruise vacation is protected. The program allows guests the flexibility to change their vacation plans up to 30 days prior to the day of departure, receiving cancellation fees as a future cruise credit to then book another voyage when the time is right.

"Planning a vacation gives us something to look forward to and so many of us have an inherent desire to explore the world and experience sought-after destinations," said Deanna Austin, Princess Cruises chief commercial officer. "With the extension of our **Book with Confidence** program, we're giving cruisers the confidence to book a summer vacation now, knowing they have flexibility in case they need to alter their plans."

Additionally, Princess Cruises will continue to operate vaccinated cruises, as defined by the US Centers for Disease Control and Prevention (CDC) for guests who have received their final dose of an approved COVID-19 vaccine at least 14-days prior to the sailing day and have proof of vaccination.

Princess Medallion Class summer cruise vacations sail to incredible destinations including Alaska, the Caribbean, Mediterranean, British Isles, Scandinavia and Canada & New England.

Within the **Book with Confidence** policy, the **COVID-19 Protection Program** provides reassurance if cruisers are within 30 days of sailing, all the way through to disembarking from their cruise. It's designed to assist booked guests if, as a result of being suspected of having or testing positive for COVID-19, or as a result of government travel restrictions put in place within 30 days of embarkation, they may be unable to travel to the cruise embarkation port, may be denied boarding, may be quarantined on board or disembarked early.

For full **Book with Confidence** and **COVID-19 Protection Program** guidelines, visit www.princess.com/bookwithconfidence.

For even greater piece of mind, Princess also offers [Princess Vacation Protection](#) that will provide full vacation protection in the form of a future cruise credit or a reimbursement of the normally non-refundable cancellation fees, depending on the reason for changed plans. This program also covers guests during their cruise, including lost or damaged luggage protection, emergency excess medical expenses and emergency evacuation, and trip interruption coverage which provides pro-rated refund if illness interrupts the cruise and extra costs associated with trip delays or interruptions.
